To Whom It May Concern:

I am writing this letter to highly recommend Bill Blankenship and Tax Advisors Group, Inc.

I have been working with Bill for three tax years beginning tax year 2007. Previously we had filed our Texas business personal tax returns on a compliance basis. Bill suggested we consider filing on the market value approach that he had perfected over 20 years. The result has been a 30-40% reduction in tax.

Bill uses a third party appraiser that has over 40 years experience specifically in business personal property appraisals. He has an exclusive contract to work with Bill and does not do any appraisals for any other tax consulting firm. His appraisals have stood the test of board reviews and lawsuit filings. Each year the appraiser sets the market value appraisal tables Bill uses to value the most common assets and inventory across a wide range of markets and industries. The accurate and substantiated appraisals work in conjunction with Bill's tax experience of over 20 years as the market value leader and innovator resulting in excellent tax savings results. We also enjoy working directly with Bill who oversees an excellent staff of tax consultants trained by him to implement his personalized strategy.

If you should have any further questions, please feel free to call me.

Sincerely,

A handwritten signature in cursive script, appearing to read "Nicole Perko", written in a reddish-brown ink.
