

Company Overview: Tax Advisors Group LLC (“TAG”) specializes in Texas business personal property tax consulting. We are committed to providing the highest standard of customized tax consulting and client service in the industry. Our trademarked TAG It™ method of valuation and tax processing is unique in the industry and sets TAG apart from other firms offering tax consulting services in the United States.

Job Description: This individual will be responsible for designing and engineering robust, enterprise-grade software and cloud infrastructure solutions to solve TAG’s complex and unique technical challenges, and to enhance our ability to serve our clients.

Duties:

- Perform day-to-day software development using Agile tools and practices
- Provision and configure cloud infrastructure and DevOps CI/CD pipelines and processes
- Work closely with the Director of Technology and product owners to implement rapid proof-of-concepts and vet proposed software and infrastructure solutions
- Draft technical documentation and diagrams for existing and future software
- Proactively identify and triage shortcomings/limitations in existing and proposed processes
- Be willing and able to enthusiastically assist with coworkers’ day-to-day interactions with our software/workstations, and provide support when needed
- Utilize domain-driven design and functional programming methodologies to write bullet proof and “beautiful,” maintainable code

Qualifications:

- 3+ years working in a professional business environment
- 2+ years implementing complex business solutions in code
- 2+ years configuring and monitoring cloud-based (Azure/AWS) infrastructure
- Experience developing with C+ (.net6), Angular, Enterprise Java, and transactional SQL targeting web, backend services, and document management
- Adept problem-solving skills and an analytical mindset
- Excellent communication, organizational, and basic computing/office skills
- Pre-emptively performs SDK documentation/stack overflow research
- Experience with Agile software development methodologies
- Technical Writing and complex concept distillation prowess

Compensation:

- Base salary commensurate with experience
- Incentive bonuses payable twice a year, based on terms set by the Company
- Winter closing for approximately two weeks the end of December and beginning of January each year during the Christmas and New Year’s holidays
- PTO time awarded based on years of employment (prorated first year based on start date)
- Medical, Dental, Vision, Life and Disability Insurance; Employer contributes toward medical and dental premiums
- Other bonus opportunities and benefits may apply
